Software Engineer

Profile

Graduated summa cum laude (GPA 3.97) passionate about building user-focused software that blends intuitive design with reliable functionality. A U.S. Marine Corps veteran, I bring a disciplined, mission-driven mindset along with strong problem-solving, teamwork, and technical skills to deliver impactful and innovative solutions.

Employment History

SOFTWARE DEVELOPER

MAY 2025 — OCT 2025

Developed an all-in-one football statistics platform for the Melbourne Club football team, integrating multiple sports data APIs to deliver real-time player performance analytics. Designed algorithms that improved statistical accuracy by over 50%, enabling more precise insights and supporting predictive game analysis to enhance coaching strategy and player evaluation.

DIGITAL SALES ENGINEER, CORDAROY'S

FEB 2022 — MAR 2024

Designed and launched a new online sales channel, integrating marketing tools and analytics to increase engagement and boost add-on sales. Developed features to enhance the user experience and collaborated with cross-functional teams to align technical solutions with business goals. Monitored performance metrics and implemented data-driven improvements to maximize efficiency and drive growth.

Education

BSSE, Software Engineering, KEISER UNIVERSITY
