PROFESSIONAL SUMMARY

Software engineer with a B.S. in Software Engineering (summa cum laude, 3.97 GPA) and eight years of leadership as a U.S. Marine Corps Platoon Sergeant. Builds backend services, REST APIs, and data integrations, resolves production issues on live systems, and turns manual work into reliable automated pipelines. Works across Node.js, Python, Java, Kotlin, and React in Agile, distributed teams using GitHub and Jira. Holds CompTIA Cloud+, Certified ScrumMaster, and Google Cloud Professional certifications.

CORE QUALIFICATIONS

- **Backend and API Development:** Integrated REST API endpoints in Node.js and MySQL on a live transit platform; built API connectors between an inventory platform, a custom backend, and the eBay API.
- **Production Support:** Resolved 12+ production issues on live deployments; improved routing accuracy by 20% and cut response time by 7.3ms through algorithm tuning and query optimization.
- **Process and Automation:** API integrations, data pipelines, and reporting dashboards that cut manual entry by 70% to 80%.
- **Technical Writing:** Authored SOPs, inline code documentation, and architectural decision records for team handoffs and remote onboarding.
- **Leadership:** 8 years leading, training, and evaluating Marines as a Platoon Sergeant; team lead experience in sales and operations.

CERTIFICATIONS

CompTIA Cloud+ · CompTIA Cloud Essentials+ · CompTIA AI Essentials · Google Cloud Professional · Certified ScrumMaster (CSM) · Remote Work Professional · C# .NET, Python, and Java Application Developer

TECHNICAL SKILLS

- **Languages and Data:** JavaScript, Python, Java, C#, Kotlin, SQL, MySQL, PostgreSQL, SQLite, HTML, CSS
- **Frameworks and APIs:** Node.js, React, Vite, Django, REST APIs, Google Sheets API
- **Cloud and DevOps:** Vercel, Docker, CI/CD, Git, GitHub; Google Cloud Platform, AWS, and Azure (certification and coursework)
- **Tools:** Jira, Slack, Trello, Visual Studio, Excel (formulas and pivot tables)
- **Practices:** Agile and Scrum, code review, incident troubleshooting, process improvement, SOP and technical documentation, training and mentoring

PROFESSIONAL EXPERIENCE

Backend Developer Intern | Blaise Transit **Jan 2025 to Apr 2025**
Remote (Canada based)

- Provided production support for a live, real time, on demand transit platform; resolved 12+ production issues on live deployments, improving system reliability.
- Integrated four REST API endpoints (JavaScript, Node.js, MySQL) for real time data exchange between mobile and web clients; improved routing accuracy by 20% and cut response time by 7.3ms through algorithm tuning and query optimization.
- Collaborated asynchronously across time zones in Agile sprints using GitHub, Jira, and Slack; documented backend workflows and architectural decisions to support remote onboarding.

Sales Channel Developer and IT Optimization Specialist | Cordaroy's **May 2020 to May 2024**
Gainesville, FL

- Designed and deployed API connectors between the Jazva inventory platform and a custom backend, and integrated the eBay API, automating product data synchronization; contributed to 32% revenue growth.
- Resolved N+1 query and asset loading bottlenecks, improving site performance, user engagement, and checkout conversion.
- Hand coded frontend improvements in HTML, CSS, and JavaScript for checkout and product display pages.
- Created and maintained SOPs and inline code documentation to keep systems stable and enable smooth team handoffs.

Retail Operations and Inventory Analyst | Panama Homes LLC **Jan 2023 to Present**
Hialeah, FL

- Built automated inventory tracking with Google Sheets API integrations, consolidating 150+ monthly records and cutting manual data entry by roughly 70%.
- Designed data pipelines pulling supplier data from four international distributors, with automated reporting dashboards that track KPIs across 25+ SKUs, reorder points, and sales trends.

- Manage inventory and logistics for a multi category retail business, coordinating inbound shipments and warehouse storage with distributors across 4 countries.
- Maintain regulatory compliance by managing business licenses and permits and partnering with a CPA on annual filings.

Export Operations Analyst | Safe Passage Partners, LLC **Oct 2023 to Jan 2026**

Pembroke Pines, FL

- Built automated shipment tracking that integrated shipping platform APIs and processed 150+ monthly records, reducing manual entry by roughly 80%.
- Coordinated end to end export logistics from the U.S. to Ecuador, evaluating platforms and carriers to optimize cost, transit time, and reliability.
- Managed the full shipment lifecycle and verified weight and compliance against airline cargo policies, delivering 7+ policy compliant shipments per month.
- Resolved logistical issues in real time during final mile delivery to prevent delays and losses.

Platoon Sergeant | United States Marine Corps **Jul 2016 to Jul 2024**

- Led and managed Marine platoons in high pressure operational environments, setting priorities, assigning tasks, and holding the team accountable to mission objectives.
- Awarded the Robert Mett Medal for leadership during Northern Strike, a major military readiness exercise.
- Planned and coordinated training exercises and joint and multinational training, improving unit readiness and team performance.
- Trained at Quantico as a Marksmanship Coach and coached Marines on rifle skills for annual training, building a culture of mentoring and continuous improvement.

Area Sales Lead | Premier Global **Aug 2014 to Jun 2016**

Central Florida

- Turned around a low performing location through team coordination and weekly meetings; ranked top DirecTV sales performer in the area.

EDUCATION

B.S. Software Engineering | Keiser University **Mar 2026**

Summa Cum Laude, 3.97 GPA. Coursework: full stack development, database design, API architecture, data structures and algorithms, full SDLC.

A.A. Computer Science | Santa Fe College **2022**

SELECTED PROJECTS

- **CourseworkPlan (Kotlin, SQLite):** Android planner with API driven syllabus scanning that auto populates assignments, exams, and quiz dates.
- **BudgetBuddy (Kotlin, SQLite):** Android budget tracker with multiple accounts, spending categories, and limit indicators.
- **Personal Portfolio (React, Vite, Vercel):** anthony-fuel-portfolio.vercel.app
- **NetForge Intake Form (HTML, CSS, JavaScript):** Client intake and project submission form for web development requests.
